Dear Sir / Madam

Reading Rotaract – An Opportunity to ...

As a leading company in the Reading area, you are no doubt concerned with the wellbeing of your staff and may wish to encourage their self-development and involvement in community affairs, in line with your corporate ESG policy. In line with this, perhaps your members of your staff aged 18 - 30 might be interested in joining Reading Rotaract.

What is Rotaract and what does it offer?

Rotaract is a fun and dynamic international organisation that provides an opportunity for people aged 18- 30 to make a difference while enhancing their vocational skills, getting involved with the local community and most importantly have fun.

Membership is diverse and inclusive, comprising young people from all walks of life. For your employees, particularly graduate trainees and those new to the area, it can provide a great opportunity to meet new people, build a network of friends and external contacts, playing a part in supporting their mental wellbeing and work/life balance.

Rotaract clubs are actively engaged in community-based projects; for example in raising money for good causes, delivering environmental projects, direct support to local organisations and generally making our community a better place.

As Reading Rotaract is relaunching in 2022 it's an exciting time to get involved, giving members the chance to learn new skills, foster a sense of giving back to the community and shape what they would like out of Rotaract.

Rotaract is part of the Rotary International movement and works in closely with the local Rotary Clubs in Reading

Rotaract are always looking for new members and it would be very much appreciated if you could display the enclosed leaflets or pass them onto anyone you know who might be interested.

Copies of this letter and the enclosed leaflet may be downloaded by clicking [letter](#) and [leaflet](#).

Please feel free to distribute to your staff or add to your intranet. If you would like any further details or more hardcopies please contact me directly.

For further information about Rotaract please visit the club's website at www.readingrotaract.org.

Thanks in advance for your support

Val Robinson
